

Dear Family Member:

Family Week is scheduled for the week of _____.

We at Pacific Coast Recovery Medical Center are looking forward to working with you and _____ on issues related to:

Chemical Dependency/Chronic Pain and Addiction such as:

1. Medical Aspects of Addiction/Chronic Pain.
2. Co-Dependency and Boundaries.
3. Toxic Beliefs and Toxic Communication.
4. Relapse Prevention Strategies.
5. Addiction/Chronic Pain and the effects on the family.

It is extremely beneficial for Family participation to ensure family and patient's long term recovery. We realize that we are asking a lot for a one week commitment from family members. Positive changes and relationships can begin to occur in the family when all work together. For family members to experience the full impact of the recovery process it is crucial to attend the entire family week.

Please confirm your attendance by calling 949-499-1311 X3700 on Friday _____ before 10 A.M.

Thank you.

Sincerely,

Marcia Locke, M.A.
